Project Experience

Upwork
Freelancer (Remote)

E-commerce Platform

- Designed and developed a secure, responsive, and user-friendly e-commerce platform using Spring Boot, covering all aspects of the shopping process from product browsing to checkout and payment.
- Implemented end-to-end shopping cart and payment functionality, enhancing user experience on both mobile and desktop.
- Optimized performance and responsiveness, reducing load times by 30%, resulting in a smoother, more efficient user experience.

Word Processor Application

- Developed a desktop word processor with basic functionalities similar to Microsoft Word, using Java swing.
- Integrated features for text formatting, document saving, and editing to provide a streamlined and user-friendly document-editing experience.

Education

WASCE
Lagos State Model College Agbowa
2015 – 2021 | Lagos State, Nigeria
